1. An informal examiner's amendment to the specification is attached to update the status of the related applications referenced therein.

### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest, individually or in combination: "indicating that a microprocessor erroneously branched to a target address if a decoder indicates that a speculatively executed instruction has an invalid operand location" in combination with the rest of the limitations in claim 64 and similarly in claim 69.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
